## Los Angeles Adds Mobile Communication Operated From Outside H-Bomb Target Area

With the addition of three new trailer-mounted mobile communications centers, Los Angeles becomes the first city in the nation to provide a flexible, integrated communications network for its civil defense organization. These new units, each representing an investment of approximately \$40,000, tie into 36 fixed communications centers throughout the city which in turn reach a total of 800 message centers. To man this entire system would require a total of 17,500 persons for a single shift.

The new equipment represents the combined planning of city personnel, the Fruehauf Trailer Company and the General Electric communications department. In addition to the three Fruehauf units there is a similarly-equipped fixed base, but any of these three mobile units can function as a base if the permanent station, which is located in a heavy concrete structure is knocked out. The radio units have a potential radio range wide enough to

operate beyond H-bomb target area. There are six panels operating on independent radio channels. Also a master control ties in with other communications units including the Amateur Radio Relay League. The complete system includes 150 mobile two-way radio units, 100 portable walkie-talkie units and 60 medium powered stations in fixed locations throughout the city. Electricity is provided by a 25 kilowatt Onan motor-generator mounted on a pup trailer.

Shown in the illustration is complete set-up of new mobile communications unit including antennae of proper length for each channel, tractor-semi-trailer and pup trailer with motor-generator set. Upper right: Interior of new mobile communication unit. Mounted on a specially-designed Fruehauf trailer these operators control six receiving and transmitting sets plus a master unit designed by the General Electric communications department.

Rev. and Mrs. Everett Holladay and daughter Joanne left Thursday to make their home in Frostproof, where Mr. Holladay will be pastor of the Frostproof Methodist Church.

Mrs. Dell Raoul and son Bill, former Belle Glade residents now living in Sarasota spent the weekend in Belle Glade visiting Dr. and Mrs. Thomas Bregger at the Experiment Station.

McMILLAN - YARBROUGH

Palms and white gladioli with lighted tapers in candelabra formed the background for the wedding of Miss Betty Jo McMILLAN, daughter of Mr. and Mrs. J. M. McMILLAN of Belle Glade and Leon YARBROUGH, son of Mr. and Mrs. G. R. YARBROUGH of Bay Minnette, Ala. at 8 p.m. Thursday in the Chosen Baptist Church. Rev. Fred Robbins performed the double ring ceremony. Miss Ann Driggers sang, accompanied at the organ by Earl Skuce.

The bride was given in marriage by her father. She wore a ballerina length gown of white nylon all-over lace over satin, featuring a fitted bodice with self-covered buttons down the front, sweetheart neckline, long sleeves pointed at the wrist and the skirt fashioned with a full flare. Her fingertip veil of illusion was attached to a seed pearl tiara. She carried a bouquet of stephanotis, centered with a white orchid on a white prayer book.

Mrs. Ben Earnest of Miami, sister of the bride, was matron of honor. She wore a ballerina length gown of pink taffeta fashioned on princess lines with a scalloped neckline. Her bouquet was of pink carnations. Bridesmaids were Miss Louise Strobble and Miss Ruth Davis. They wore identical gowns of blue taffeta, similar in the matron of honor. Flower girls were Annie Mae and Sandra Wallace, nieces of the bride. Richard McMILLAN, the bride's nephew, was ring bearer. Jim Conway was best man and ushers were Lester McMILLAN and Ben Earnest.

A reception on the church lawn was held immediately following the ceremony. The bride and groom will live in Bay Minnette, where Mr. Yarbrough is employed.

John Cooper, pastor, officiated at the ceremony. Potted palms and baskets of white gladioli were used in the altar decorations with candelabrum of lighted tapers in the background. The windows of the church were also lighted with tapers, surrounded by white gladioli. The bride was given in marriage by her father. She wore a ballerina length gown of white nylon net over taffeta, fashioned with a fitted bodice, full skirt, bolero jacket with puffed sleeves. Her fingertip veil of illusion fell from a halo of seed pearls. She carried a white Bible topped with white camellias.

The bride's sister, Mrs. Opal Davis of Cleveland, was matron of honor. Her gown was yellow nylon net over satin with a shoulder length yellow veil. The bridesmaids were Miss Ruth Davis and Miss Louise Strobble. They wore identical gowns of blue taffeta. They wore corsages of yellow carnations. William Conway of Delray Beach was his brother's best man. Ushers were: Leon YARBROUGH, cousin of the bride from Bay Minnette, Ala., and Lester McMILLAN of Belle Glade. Soloists were Mrs. Marian Hardy and Miss Ann Driggers.

A reception followed the ceremony at the home of the bride's parents. Mrs. Alice Conway served the wedding cake and Miss Jeannette YARBROUGH served the punch.

Mrs. Conway was graduated from the Belle Glade high school with the class of 1951 and has been employed at the Collins Furniture Store in Belle Glade for the past three years. The bridegroom was graduated from high school in Seymour, Ind. and is at present employed by Vaughn & Wright, Belle Glade. ## FIRST CHURCH OF CHRIST, SCIENTIST, Belle Glade

### CHRISTIAN SCIENCE GROUP, Canal Point

"Is the Universe, Including Man, Evolved by Atomic Force?" will be the subject of the Lesson-Sermon to be read at Christian Science services Sunday.

Man's dominion over materiality is stressed in readings from the Bible and from "Science and Health with Key to the Scriptures" by Mary Baker Eddy. The Scriptural selections include the account as given in Matthew (14: 22-32) of Christ Jesus and Peter walking on the sea.

Readings from Science and Health include the following: "In proportion as matter loses to human sense all entity as man, in that proportion does man become its master. He enters into diviner sense of the facts, and comprehends the theology of Jesus as demonstrated in healing the sick, raising the dead, and walking over the wave. All these deeds manifested Jesus' control over the belief that matter is real; that it can be the arbiter of life or the constructor of any form of existence" (369.5).

The Golden Text is from Psalms: "God hath spoken once; twice have I heard this; that power belongeth unto God" (62:11).

## CORN RESEARCH IS TALK TOPIC

PAHOKEE — Plant breeding in the improvement of sweet corn varieties resistant to blight was the basis of Dr. Emil Wolf's talk to Pahokee Lions Club Tuesday. Dr. Wolf, horticulturist, Everglades Experiment Station, recalled that blights had cost corn growers expensive spray programs and three years ago local experiments were initiated to find a sweet corn variety resistant to blight.

Genetics as a tool of the plant breeder assisted in this research program. A new type, H 54-55 has been developed which compares favorably with proved varieties. It is near the point of being ready for distribution to growers, Dr. Wolf said.

Scientific investigators do not feel they can develop a variety requiring no fungicidal treatment. They are, however, optimistic about developing varieties which will need a minimum of spraying, Dr. Wolf said.

Slides showing new corn varieties developed and ear types bred illustrated Dr. Wolf's talk. Dr. Wolf, who is head of the sweet corn experimental breeding program, was introduced by James Vann for R. J. Schroder, program chairman. Lion President Ralph Johnson presided.
